## SALE INFORMATION

### VENUE:

Our Spring Bull Sale will be held in the WVLX, Mortlake, Victoria.

### INSPECTION:

We encourage buyers to inspect the bulls prior to sale day. It allows us to assist you select the sire best suited to your needs. Phone us on 0419 884 839 and advise us of your intending visit.

Lots catalogued are available for inspection from 9.00am, Wednesday 5th September.

### FREE DELIVERY:

Banquet offers free delivery to the buyer's nearest town on route to Adelaide, SA and Emerald, QLD and to the property within Vic.

### BULL TESTING:

All bulls have passed a comprehensive fertility test conducted by Dr. Craig Wood of Terang Mortlake Veterinary Clinic including –

examination for structural soundness  
examination of reproductive organs  
measurement of scrotal circumference  
SEMEN MOTILITY tested  
SEMEN MORPHOLOGY tested

### Semen Motility

Sperm cells need to be motile. At about 60um long, they've a way to travel to get the job done. Following collection of a semen sample, a drop is placed on a microscope slide and examined, 'crush side', to assess the percentage of sperm cells moving forward.

### Semen Morphology

Morphology is the anatomy or structure of the sperm. It cannot be tested 'crush side' requiring a large specialised laboratory microscope to examine a preserved semen sample, assessing the % normal and % abnormal sperm cells. It can pick up defects in the sperm that 'crush side' testing cannot. The most serious of these defects can see the sperm start to fertilise an egg but fail to result in a viable embryo and the female will fail to fall in calf.

Note that Semen Morphology can differ in subsequent samples from the same bull. Stress can cause this and putting a bull through a sale will generally cause some stress.

### THE BANQUET BULL GUARANTEE:

All bulls are backed by a 3 YEAR GUARANTEE. In the event of a bull proven to be incapable of natural service the vendor can either offer a suitable replacement if available or issue a credit for future sales. The credit is a pro-rata value of the bull minus the salvage value. The guarantee can only apply if the bulls' incapacity is not caused by injury or disease since taking delivery. Any claim must be accompanied by a relevant veterinary certificate. The vendor retains the right to obtain independent veterinary confirmation of any claim.

It is important to understand that normal care must be taken and good husbandry practices observed, as we cannot replace a bull that is injured or dies for any reason. As such, we recommend you insure animals against injury. A representative of an insurance service organisation will be available on sale day.

## ANIMAL HEALTH

### NATIONAL CATTLE HEALTH STATEMENT:

Banquet has its own Biosecurity Plan prepared in conjunction with our local vet Dr Craig Wood. We will remain at J-BAS 8 which is consistent with last years BJDMAP at MN2 level. See page 39 for our National Health Statement.

### STOCK HEALTH:

All bulls have been vaccinated with Pestiguard vaccine (pestivirus), Vibriovax (vibriosis), 7 in 1 Vaccine (leptospirosis) and drenched with Paramectin. Any bulls purchased for Queensland will be vaccinated against 3 day sickness and receive the 3 germ tick vaccine upon request.

### RECESSIVE GENETIC CONDITIONS (see pages 32 and 33)

All bulls in this Sale are free of AM, NH, CA and DD by parentage, or have been tested free. **NO CARRIER BULLS ARE BEING OFFERED FOR SALE**

### REBATE TO OUTSIDE AGENTS:

Outside agents accompanying a purchaser to the sale are entitled to a 5% rebate. Please refer to page 4 for further detail.

### AFTER SALE SERVICE:

Banquet is renowned for excellence in providing after sales service. If in doubt, speak with us or with any one of our many satisfied clients.

### FURTHER INFORMATION:

Contact Stephen or Noeleen Branson by phoning 0419 884 839 or 0437 029 992  
or Email banquetangus@westvic.com.au

**NEXT BULL SALE: THURSDAY 28th FEBRUARY 2019**

**100 BULLS**

# OUTSIDE AGENT COMMISSION REBATES

5% rebate will be paid to all agents that attend and who purchase with or on behalf of their clients and settle within seven days of sale date.

2% rebate will be paid to all agents introducing clients that purchase but not accompanied by them to the sale. A written introduction must be received by the vendor 48 hours prior to the sale and accounts must be settled within 7 days of the sale date.

## SIGHT UNSEEN PURCHASING PROGRAM

100% satisfaction guarantee.

Available to buyers who cannot attend the Sale.

For those purchasers who have discussed their requirements with us prior to the Sale we offer a 100% money back guarantee if the purchaser is not completely satisfied with their purchase. We must be notified within seven days of taking delivery. However the purchaser will be responsible for return transport costs.

# BANQUET FEATURE SIRES

## BANQUET DAY DREAM D053

Banquet Buzz V011  
**Sire: BANQUET XTRA BELIEF X030**  
 Banquet Yendi U82

B/R New Design 036 (USA)  
**Dam: BANQUET DREAM V104**  
 Banquet Dream Q34

Dear old Day Dream was a legend at Banquet. First used as a yearling and then often twice a year thereafter. He made numerous emergency trips to help our clients. His soundness, fertility and consistency of his progeny make D053 one of the most valuable sires in the history of Banquet. 300 progeny and many more descendants. This Sale will be the last opportunity to secure a line of sons.

## BANQUET KODAK K346

Coonamble Z3  
**Sire: BANQUET FREDERICK F683**  
 Vermont Dream B272

Banquet Xplanation X060  
**Dam: BANQUET CHAMPAGNE C154**  
 Black Gold Champagne J031+89

K346 is a large framed sire with extra length of neck and body and a smooth shoulder. He has proved to have exceptional calving ease traits. Scan data has shown his progeny to have extra marbling. K346, who is still in service at Banquet, is a son of C154 who topped our Belles of Banquet Sale at \$30,000 to Bannaby Angus. K346 sons will add length to their progeny and are expected to have excellent calving ease.

# BANQUET FEATURE SIRES

## BANQUET JHETT J426

Banquet Collective C351  
**Sire: BANQUET FADDIST F238**  
 Banquet Lass C219

Hingaia 469 (NZ)  
**Dam: BANQUET DREAM G489**  
 Banquet Dream Y301

Jhett J426 is one of the most exciting young sires at Banquet. He is moderate framed with excellent muscularity. He is easy doing with exceptional structure. He gives us confidence that he could thrive with high work loads in any conditions. J426 supersedes his sire as our choice of sires descending from Right Time 24J. His dam, Dream G489, may be our most valuable donor at present. She has enormous capacity and her progeny are exceptional. Another son, L352, is also in use at Banquet. G489 is a daughter of Hingaia 469 and Vermont Dream Y301, the greatest cow to come from Vermont.

## BANQUET KATOOMBA K312

WK Replay (USA)  
**Sire: ANVIL FUSION F275**  
 Te Mania Y147

Banquet Time Frame Y135  
**Dam: BANQUET DREAM D332**  
 Banquet Dream B239

Katoomba K312 topped our 2016 Sale when he was selected by Paul Hawkins, Llangothlin N.S.W. and Merchiston Stud, New Zealand. This Sale has his first sons to be offered. They have impressed with their thickness, depth of body and excellent hindquarter. We selected a son to retain for heifer joining and the balance are in this Sale. They are an excellent group.

BANQUET ZEALFUL Z021  
VOND384 BANQUET DREAM D384 (TW)  
BANQUET DREAM V200 (AI) (ET)

M404 will grow into a very impressive, incredibly powerful sire. He has extra length, an excellent shoulder and strong spine. He is wide through the hip and pin and deep flanked. M404 is the product of two exceptional individuals. His sire was the standout of our 2015 Sale when Glengowan purchased him for \$40,000. His dam, D384, was a donor at Banquet before being sold at our Belles of Banquet Female Sale.

## IMPORTANT NOTICES FOR PURCHASERS

### ~ SALE CATALOGUE DISCLAIMER ~

All reasonable care has been taken by the vendor to ensure that the information provided in this catalogue is correct at the time of publication. However, neither the vendor nor the selling agents make any other representations about the accuracy, reliability or completeness of any information provided in this catalogue and do not assume any responsibility for the use or interpretation of the information included in this catalogue. You are encouraged to seek independent verification of any information contained in this catalogue before relying on such information.

### ~ DNA PATERNITY VERIFICATION ~

It is a requirement of Angus Australia that all bulls used to sire calves for registration in the Angus Australia Herd Book Register, Red Angus Register or Angus Performance Register must have been DNA paternity verified if they are born in or after the 'Y' year (2003). Buyers intending to use bulls listed in this catalogue to produce calves to be registered in these registers should obtain DNA paternity verification on those bulls before they are used for breeding.

### ~ PRIVACY INFORMATION ~

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

#### **BUYER'S OPTION TO OPT OUT OF DISCLOSING PERSONAL INFORMATION TO THE ANGUS AUSTRALIA**

*If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its databases and disclosing that information to its members on its website.*

*I, the buyer of animals with the following registration numbers ..... from member ..... (name) do not consent to Angus Australia using my name, address and phone number for the purposes of effecting a change of registration of the following animal(s) that I have purchased, maintaining its databases and disclosing that information to its members on its website.*

*Signature: .....*

*Date: .....*

*Please forward this completed consent form to Angus Australia, Glen Innes Road, Locked Bag 11, Armidale NSW 2350. If you have any queries, please telephone 02 6772 3011 or e-mail [office@angusaustralia.com.au](mailto:office@angusaustralia.com.au).*

## BRINGING A NEW BULL HOME

Buying a bull is an investment. This investment should contribute to the genetics and sale income of your herd for many years. If you are to get the most from your new bull, it pays to look after him well, especially in the first season of use. This report discusses management strategies to maximise the productive life of your bulls.

### Arrival

New bull buyers are often concerned about the apparent bad temperament of a bull that seemed quiet enough when purchased. Bulls can become upset and excited in the sale and delivery process. They are subjected to strange yards, different noises, loss of their mates, different people, different handling methods, trucking, unloading, new paddocks and different water and feed. This can upset animals which are normally very quiet.

When the bull arrives home, unload him at the yards into a group of cows or steers. Never jump the bull from the back of a truck into a paddock. Bulls from different origins should be put into separate yards with other cattle, steers or cows, for company.

Provide hay and water, then leave the bull alone until the next day, before giving routine health treatments.

### Mating new bulls

Newly purchased young bulls should not be multiple joined with older herd bulls. They will not be allowed to work much and in keeping them away from the cows, the older, dominant bull will knock them around.

Use new bulls in either single sire groups or with other young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have few problems later.

The Australian Association of Cattle Veterinarians (AACV) defines a normal, fertile bull as "expected to get 90% of 50 normal, cycling, disease free females pregnant within 9 weeks, and 60% of these should become pregnant in the first three weeks of joining". This expectation would apply to 2 year old bulls, but not to younger bulls.

### During mating

Check bulls at least twice each week. Watch them work if possible and pay particular attention to any sign of abnormal serving problems like "corkscrew penis" or too many cows returning to heat.

Have a spare bull or bulls available to replace any that break down. If you have to replace a bull, get the bull checked by your vet. Sometimes prompt treatment for small problems can avoid culling. Vendors that provide guarantees on their bulls will usually require a veterinary certificate indicating the problem with unsatisfactory bulls.

Rotate bulls in single sire groups to make sure that any bull infertility is covered. Single sire joining works well but it has risks. The bulls must be checked regularly and carefully or the bulls rotated every one or two cycles.

# You can count on us.

Across the country, our people work hard to know livestock best. We've been in the business for more than 150 years and we're committed to provide the best marketing options for every season. That's why you can rely on Landmark.

# Breakwater

Insurance Brokers

## FARM INSURANCE

Protect your farm business and your assets with an insurance policy tailored to meet your needs.

Breakwater Insurance can arrange competitive premiums and cover for commercial dairy, beef, sheep and cropping enterprises.

We offer professional, on-farm advice relating to:

- Livestock mortality
- Farm buildings and contents
- Home and contents
- Farm machinery and machinery breakdowns
- Livestock, hay, fencing and farm trees
- Liability
- Motor vehicles (all types)
- Theft
- Business interruption.

## NATIONAL CATTLE HEALTH DECLARATION

Version 18/10/17

Owner of cattle S & N Branson (Full trading name) .....  
 Property/place where the journey commenced .....  
 420 Fosters Lane (Address) Mortlake Vic 3272 (State) (Postcode)  
 (Address continued) .....  
 Property Identification Code (PIC) of this property 3 M Y N L O 4 3  
 This MUST be the PIC of the property that the stock is being moved from  
 Details of other statutory documents relating to this movement e.g. NVD  
 .....  
 (Document type) ..... (Document number) ..... (Office of issue) ..... (Expiry date) .....

*Note: If NVD accompanying this declaration then you may go straight to question 1*

Description of cattle		
Number	Description (Breed, sex e.g. Hereford Cross Steers)	Brands or Earmarks
45	Angus Bulls	
	Total	

Consigned to Various Buyers  
 (Name of person or business) .....  
 (Address) ..... (Town/suburb) ..... (State) ..... (Postcode) .....

Destination (if different) of cattle ..... (Location address) .....

1. Has the owner stated above owned these cattle since birth?  
 Yes  No

2. On the property stated above, has an on-farm biosecurity plan been implemented?  
 Yes  No   
 If yes, which plan (e.g. Farm Biosecurity, LBN, BioCheck) ..... Farm Bio Security

3a. Have these cattle been tested for the presence of pestivirus antigen?  
 If tested, were any cattle found to be persistently infected? Yes  No   
 Yes  No

3b. Have these cattle been tested for the presence of pestivirus antibody?  
 If tested, what percentage of the tested cattle were antibody positive? .....  
 Yes  No

4. Enzootic Bovine Leucosis (EBL) test result for animals being moved: .....  
 Date of test ...../...../.....

5. Are the cattle from an EBL accredited or certified free herd? Yes  No

6. Are these cattle from a herd or property with an occurrence of Johne's disease (JD) in any susceptible species within the last five years?  
 Yes  No  Don't know  J-BAS of ..... EIGHT (optional)

7. On the property stated above, have cattle been co-grazed with dairy cattle and/or sheep?  
 Yes  No  Don't know  Check Test  Sample Test

8. Source herd has a negative JD test result:

Date of test 26/06/18

9. If dairy cattle, the consignment has a Dairy Assurance Score of:  
 Part A (herd base score) ..... Part B (calf credits) ..... Part C (total Dairy Score) .....

Treatments	Product	Date of treatment within last 6 months
Drench	Decomax	13/05/2018
Liver fluke treatment		
Other treatments (type)	AD&E, 7 in 1	13/05/2018

11. Current vaccinations for the cattle being moved (see explanatory note)  
 Clostridial vaccination (e.g. 5 in 1): Yes  Clostridial vaccination (Botulism): Yes   
 Pestivirus vaccination: Yes  Bovine ephemeral fever vaccination: Yes   
 Leptospira vaccination: Yes  Vibrio vaccination: Yes   
 JD (Silirum) vaccination: Yes   
 Other vaccinations (specify): .....

12. Any other relevant health information .....

DECLARATION (see explanatory notes for further information)  
 I Noeleen Elizabeth Branson (Full name) ..... (Full address) .....  
 184 Steeles Lane Mortlake Vic 3272 (Address continued) (Town/suburb) (State) (Postcode)  
 declare that I am the owner or the person responsible for the husbandry of the cattle and that all the information in this document is true and correct. I also declare that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that I have inspected the animals and deem them to be healthy, free of signs of disease and fit to travel.
